

AquaHYDRA

When Water Moves Like a Serpent

AquaHYDRA is a sequencing water effect module designed to bring motion and expression to your water features. With 360° directional control and the ability to articulate up to 15° from vertical in any direction, it enables water to sway, spin, and dance in choreographed harmony. Integrated RGBW or tunable white LED lighting ensures captivating performances both day and night. Ideal for architectural installations and themed environments, AquaHYDRA delivers dynamic, interactive displays that elevate the visual impact of any project.

- ✓ Robust Stainless Steel Body
- ✓ 24VDC Powered & DMX-RDm Controlled
- ✓ IP68 Socket - One Cable Connection
- ✓ AquaLIGHT x3 (Optional - 103 / 303 / 403)
- ✓ 360° electronic directional control
- ✓ Up to 15° tilt from vertical in any direction
- ✓ Bucket Part Availability

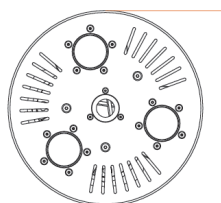

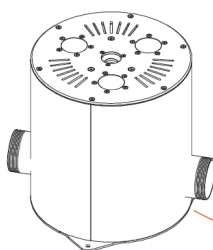

TECHNICAL DETAILS

MODEL :	AquaHYDRA
DIMENSION :	Ø340mm - 360mm
MATERIAL :	Stainless Steel
POWER & DMX :	Combo Cable
LIGHTING :	3x AquaLIGHT103-303-403
CURRENT :	2A
POWER :	48 W
VOLTAGE :	24 VDC
PRODUCT NO :	1007
