AquaLIGHT 103

## Experience Lighting with RGBW and Amber Light

Our well-proven lights are equipped with energy-efficient LED plates that produce effective illumination. AquaLIGHT 103 offers a single light option with white variants (wW, W, cW). This light creates an efficient composition in open space fountains. This powerful light brings even more brightness into the darkness and can also be installed in larger fountain systems. Individual fountains and water effects are effectively illuminated with a light like this.

- ✓ CREE / Edison PowerLED

## Lighting Angle:

60°   **10°**

! In lighting, choosing the lens angle is as important as selecting the color or wattage. Small angles retain brightness at long distances, while wide angles cover larger areas but lose brightness over distance.
