

AquaPULSE

Crafting Impressive Water Pulse Effects !

AquaPULSE is an elegantly designed unit that brings a sense of serenity and mysticism to animated pools. Utilizing servo motor technology, this device creates gentle, circular wave patterns that transform your water feature into a relaxing and visually captivating experience. With integrated single or multi color lighting options, the subtle yet mesmerizing movement of the waves, combined with lighting effects, provides a peaceful and refined visual experience.

- ✓ Smooth Wave Effect with Servo Motor
- ✓ Integrated AquaLIGHT Lighting
- ✓ Robust Stainless Steel Body
- ✓ 24VDC Powered & DMX-RDM Controlled
- ✓ IP68 Socketed One Cable Connection
- ✓ Synchronorm Depence Library available

TECHNICAL DETAILS

MODEL :	AquaPULSE
DIMENSION (ØxH) :	300x287 mm
MATERIAL :	Stainless Steel
WEIGHT :	1 kg
POWER & DMX :	Combo Cable
CURRENT :	1 A
POWER :	24 W
VOLTAGE :	24 VDC
MAX PRESSURE :	2 Bar
PRODUCT NO :	1095

COMPATIBLE ELEMENTS AND ACCESSORIES

PRODUCT GROUP	SEE
Nozzles :	Accessory nozzles
Connection :	Connection accessories
Controlling :	Control accessories
Holder and Stand :	Holder and Stand Accs.
Lighting :	Lighting Series
